Abstract/Paper Early Bird Submission Due Date: April 15, 2020
2020 Interdisciplinary Conference on STEAM Education (STEAM)
Conference Date: August 21–23 2020
Conference Venue: Waseda University, Tokyo, Japan
<https://steam2020.gaics.org/>

Dear Professors and Researchers,

We are delighted to bring your kind attention to the 2020 Interdisciplinary Conference on STEAM Education (STEAM 2020) which will take place at Waseda University, Tokyo, Japan on August 21–23 2020. In order to promote and leverage interdisciplinary research and learning, STEAM 2020 is organized by global academic–industrial cooperation society (GAICS) and emphasizes interdisciplinary interaction and collaboration. Authors are invited to submit an abstract or full paper online through signing in to the conference management system.

As the organization executive committee, we organize the conference program starting with the local tour at 8:30 on August 21. It is followed by the opening ceremony, culture performance, keynote speeches, and distinguished papers award beginning at 14:00. Finally, we have the reception party to welcome the attendees from all over the world to close the conference program for the first day. On August 22 and 23, around 30 sessions are being arranged. The exact number of sessions fully depends on the final total numbers of submissions and attendees.

Abstract submission guideline form and full paper submission guideline form are available on the <https://steam2020.gaics.org/> which is updated over submission web page at the conference website time. All submissions to the conference will be blind reviewed for topic suitability, research quality, and contribution. Abstracts/Papers that are published in the conference proceedings will be further submitted to the ISI office to be reviewed and considered to be indexed in the Conference Proceedings Citation Index (CPCI). Please note that the ISI office welcomes all submissions but there is no guarantee of inclusion in the CPCI. Inclusion in the CPCI is selective and competitive, while not all–inclusive.

For questions pertaining to conference information such as Keynote Speakers, Workshop, Tracks and Topics, Program and Schedule, Submission and Deadlines, Registration and Payment, Tour and Conference Venue, and Contact, please refer to the conference website. You may also send us a workshop proposal to be organized as part of the conference.

Looking forward to seeing you at Waseda University in Tokyo soon!
