

International Conference on Biotechnology, Food Science, and Pharmaceutical Research
3rd to 5th August 2016
Kuala Lumpur, Malaysia

With the advance and innovation of science and technology, biotechnology, food science, and pharmaceutical research have deeply influenced human beings' daily lives. Biotechnology, food science, and pharmaceutical industry even make the largest contribution to GNP in many countries. Therefore, ICBFP aims to bring industry academic scientists, academic researchers, scholars, and Ph.D. students to exchange and share their experiences and research results about all aspects of biotechnology, food science, and pharmaceutical research.

All authors are encouraged to contribute to and help shape the conference through submissions of their research abstracts, papers, or posters. High quality research contributions describing original and unpublished results of conceptual, constructive, empirical, experimental, or theoretical work in all areas of biotechnology, food science, and pharmaceutical research will be recommended to sponsored journals for special issues. All submissions to the conference will go through blind peer review by at least two independent reviewers. Interesting topics are listed on the conference website for your reference only, and not limited to these topics.
