

Global Symposium for Psychology Professionals
11th to 12th October 2013
Riverside, California (Los Angeles Metro), United States of America

CALL FOR PAPERS

Submission of an abstract, topic of interest or proposal will be accepted for the purpose of registration. Time schedule to be determined later after all the papers have been received. Abstracts are currently being accepted.

Based on the approval for submission of paper, deadline for submission of final paper is no later than October 11, 2013.

The symposium will provide a valuable opportunity for psychology professionals from different cultural backgrounds and diverse fields to explore the global impact of psychology as a field of practice on community and individual mental health care.

We would like to extend our warmest invitation to you to participate in the Global Psychology Symposium. The theme of the symposium is Psychology and Global Health, Changing Times, Changing Practice.

Psychology professionals play a pivotal role in the promotion, maintenance and restoration of mental health on a global scale. There is a global trend of shifting the focus of mental healthcare services from traditional settings to community based and family focused practice. Psychology professionals are increasingly called upon to respond to the needs of society and individuals in crisis, war, famine, economic turmoil, crime, murder, abuse, loneliness, and despair.

The symposium will provide a valuable opportunity for psychology professionals from different cultural backgrounds and diverse fields to explore the global impact of psychology as a field of practice on community and individual mental health care. An international perspective will be used to promote the generation and implementation of evidence based practice. Through sharing and exchange of information on the latest developments in the disciplines among experts from across the globe, the Conference will contribute to formulating global and regional strategies in advancing psychology.
