

ENTECH '15 / III, International Energy Technologies Conference  
ENTECH '15 / III, International Energy Technologies Conference will be held between 21st to 23rd of December 2015 at Istanbul, ENTECH '15 will be coordinated by DAKAM (Eastern Mediterranean Academic Research Center) and organized by BILSAS (Science, Art, Sport Productions).

Energy is of vital importance to any society today and the future of energy needs to be sustainable in terms of environment and climate. Crucial changes are to happen inevitably on many different levels. The challenges encompass many layers of complexity, from natural science research and engineering to social sciences, systems solution and actions and agreements at the political level globally. This question of the future of global energy supplies has to be addressed with objectivity and competence, without ideological bias. Only an interdisciplinary approach would have the potential to optimize the necessary cooperation and communication in energy research, development and the support to industrial innovation.

Energy Technologies Conference will be able to consolidate and communicate the vitally necessary synergy of scientific and technical competence with knowledge on environmental and social implications. The conference will provide participants with a view and a vision on how the future of energy in the world could look like.

#### KEYNOTES

#### AWARDS

The Best Papers will be awarded during the conference. The Best Paper Award will be announced at the closing session of the conferences. The award will be decided by the participants' votes only. All papers presented at the conferences will be nominated automatically and voting will take place just before the closing session.

The results will be announced from the official conference site and a voucher for a free registration in one of the next year's events organised by DAKAM will be given to the author.

#### PUBLICATION

All submitted papers are subject to double blind peer review. Conference proceedings are going to be available on DVD and DAKAM's digital library with an ISBN number before the conference and will be sent to be reviewed for inclusion in the "Thomson & Reuters Web of Science's Conference Proceedings Citation Index" (CPCI) and Google Scholars.

#### VENUE

Nippon Hotel Istanbul is in the heart of Taksim, easily accessible by metro, taxi or bus. The Hotel is providing an easy way of getting around the city. The minimalist decoration expressed with far-eastern figures meets Hotel guests with an other world where they can rest in the heart of metropolice far from chaos of the city. A very special address combining the beauty of Istanbul with comfort.
