

5th International Conference on Global Public Health 2019
"Climate Change and Global Health – Challenges and Issues"
17–18 October 2019, Kathmandu, Nepal
<http://www.health3000.org>

We would like to invite you to present your research or to join as a listener at the 5th International Conference on Global Public Health 2019 organized by International Center for Research and Development and hosted by Japan–Nepal Health and Tuberculosis Research Association (JANTRA) which will be held on 17–18 October 2019 in Kathmandu, Nepal.

This two day interactive knowledge building international conference will create an opportunity for academics, public health practitioners and PhD and Master degree students to come together, review their research findings, exchange ideas, and discuss emerging trends in Public Health.

The abstract proceedings will be published in a journal before the conference with an ISSN 2659–2487 and forward for indexing to ISI/Thomson Reuters.

The Benefits of attending GPH2019

- Global audience
- Abstract proceedings – ISI indexed
- Great networking opportunities
- Explore Nepal a model for public health
- Opportunity – One day education field visit
- Publication opportunity with three journals

We cordially invited you to submit an abstract to this premier conference. We accept abstracts of research projects, case studies, research proposals (for future research) and ongoing research work, PhD research etc, which are relevant to the conference topics.

You can get more details by visiting the following links:
