

21st International Water Technology Conference
28th to 30th June 2018
Port Said, Egypt

The International Water Technology Conference (IWTC) brings together Experts, Researchers, Equipment Manufacturers and Consultants, in order to discuss the latest state of the art in the field of water and waste-water technologies.

Who should attend?

This 3 days conference is aimed at a wide range of water practitioners and professionals from governments, local and global water companies, consultants and equipment suppliers.

Top 4 Reasons to Attend:

- Learn about the latest innovations and technologies
- Hear from and exchange knowledge and ideas with highly regarded professionals
 - Great networking opportunities.
- Being in touch with the new trends in technology

We are looking forward to seeing you in ×Port Said×
