<http://www.sarawak.uitm.edu.my/iconda17/> Web address:

The advancement in computer and drones applications is beyond human imagination, affecting and transforming the society, both structurally and socially. Exploitation of computer and drone technology is crucial to humankind in the futuristic world. IConDA-2017 provides an exceptional value platform for sharing and networking among scientists, academicians, policy makers and stakeholders from government institutions, universities, Non-Government Organizations as well as industry or private sector.

CALL FOR PAPERS

=====

Prospective authors are invited to submit 4 to 6 pages long PDF or DOC manuscripts of their research work to IConDA 2017. Papers are invited in broad areas of (but not limited to):

COMPUTER APPLICATIONS

Artificial Intelligence; Bio-Tech & Medical Applications; Computer and Mathematical Modelling, Cyber Security and Strategies; E-Commerce Applications; Data & Information Mining; E-Government & E-Governance; E-Learning; Internet of Things (IoT); Machine Learning; Parallel & Distributed Systems; Smart, Adaptive & Intelligent Systems Technologies; Social Networks; Web & Content Management Applications; Virtual Environments & Games Applications and Emerging Computer Applications.

DRONE SYSTEMS

Automation & Robotics; Communication Standards; Embedded & Real-Time Systems; Processor Architectures; Wireless & Mobile Network

DRONE APPLICATIONS

Image and Signal Processing; Information Retrieval & Knowledge Management; Remote Sensing & GIS; Surveillance and Reconnaissance; and Other Emerging Drones Applications.

For important Dates, Paper submission instructions, Keynote & Invited Speakers, Sponsorship and <http://www.sarawak.uitm.edu.my/iconda17/Exhibit> Opportunities kindly visit:

VENUE

=====

"If adventure had a home, it would be the vast wilderness. Grand, green, awesome! Like no other place on earth. If adventure had a home, it would be filled with the friendliest people on earth. People of different races, religions, and cultures. If adventure had a home, it would be here when one arrives as a guest and leaves as family. If adventure had a home, its home would be Sarawak. Come and explore our ) | <https://sarawaktourism.com> vast wild home of adventure. Sarawak, where adventure lives." (Source:
