

International Conference on Applied Economics (ICOAE) 2018  
5th to 7th July 2018  
Warsaw, Poland

The aim of the ICOAE conferences is to bring together economists from different fields of Applied Economic Research in order to share methods and ideas. Proceedings will be published by Springer. Papers are accepted after peer review.

The topics to be covered include (but are not limited to):

Applied Macroeconomics  
Applied International Economics  
Applied Microeconomics including Industrial Organisation  
Applied work on International Trade Theory including European Economic Integration  
Applied Financial Economics  
Applied Agricultural Economics  
Applied Labour and Demographic Economics  
Applied Health Economics  
Applied Education Economics

For ICOAE2018 contributions are welcome from all areas of Economic Science (i.e. all subject areas included in EconLit) that use applied econometrics as their methods of analyses, with special interest in time series data estimation methodology. Indicative fields include Applied Micro- and Macroeconomics, Applied Financial Economics, Applied Agricultural Economics etcetera.

About 150 articles are submitted each year from about 40 countries with an acceptance rate of about 65%.

Proceedings will be published on-line by Springer in the series 'Springer Proceedings in Business and Economics' under the title "Advances in Time Series Data Methods in Applied Economic Research – Proceedings of the 2018 International Conference on Applied Economics (ICOAE)". Papers are accepted after peer review.

Keynote Speakers:

Prof. Mamoru Kaneko, Waseda University, Faculty of Political Science and Economics, Tokyo, Japan.  
Prof. (Emeritus) Ian Steedman, Manchester Metropolitan University, Senior Research Fellow, William Temple Foundation, Honorary Research Fellow, University of Chester, United Kingdom.
